TARIFF FORMAT

Sheet Numbering. Sheet numbers appear in the upper right hand corner of the sheets. Sheets are numbered sequentially. From time to time new sheets may be added to the tariff. When a new sheet is added between existing sheets, a decimal is added to the preceding sheet number. For example, a new sheet added between sheets 5 and 6 would be numbered 5.1.

Sheet Revision Numbers. Revision numbers also appear in the upper right corner of sheets. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th Revised Sheet No. 14 cancels the 3rd Revised Sheet No. 14.

Paragraph Numbering Sequence. There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level, as shown by the following example:

2
2.1
2.1.1
2.1.1.A
2.1.1.A.1
2.1.1.A.1.(a)
2.1.1.A.1.(a).I
2.1.1.A.1.(a).I.(i)
2.1.1.A.1.(a).I.(i).(1)

Check Sheets. When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current one on file with the Commission.

Explanation of Symbols. When changes are made in any tariff sheet, a revised sheet will be issued replacing the tariff sheet affected. Changes will be identified on the revised sheet through the use of the following symbols:

- (C) - Identifies a changed regulation.
- (D) - Identifies a discontinued rate or regulation.
- (I) - Identifies an increase in rate.
- (N) - Identifies a new rate or regulation.
- (R) - Identifies a reduction in rate.

6. A Customer may access the interexchange carrier selected by the Customer for calls beyond 15 miles, interLATA, intraLATA, interstate or international calling;
7. A Customer may access (at no additional charge) the Company's operators for service-related assistance; access toll-free telecommunications services such as 800/888 NPA; and access 9-1-1 service for emergency calling;

3.7.2 Directory Assistance

Prepaid Local Exchange Service Customers and users of the Company's calling services (excluding 800/888 services) may obtain directory assistance in determining telephone numbers within Illinois by calling the Directory Assistance operator. Charges for directory assistance shall be those set forth in this tariff for all customers of the Company. Because such charges are not included in the prepaid amounts paid by customers, the Company reserves the right to bill customers immediately for such services. Customers may not make more than 10 calls to directory assistance in any 30 day period unless they provide to the Company all charges for such directory assistance.

Customers may not use the feature of directory assistance whereby they may be connected directly to the called party to make a call that is not permitted by this tariff (for example, a call in which the called party's Ameritech Illinois central office is greater than 15 miles from the central office serving the customer). Use of such feature is grounds for disconnection upon the Company providing notice required under this tariff.

3.7.3 Customer Billing

5. Regular bills will be issued once each month. All services of the company are prepaid. The bill shall include a monthly fee which will allow the customer to make an unlimited number of calls to locations in which the Ameritech Illinois central office of the called party is fifteen miles or less from the central office serving the customer. Additional prepaid charges may include charges for any special or enhanced services or any extended unlimited calling area ordered by the customer..
6. Charges for services that are not included in prepaid charges may be issued to the customer immediately. These bills will carry a due date which is ten days after the date that they are mailed or seven days if delivered by hand.
7. Bills are due on the due date shown on the bill and may be paid at any of the Company's public business offices or other authorized payment locations.

3.7.4 Disconnection For Evading Use Restrictions

The Company may discontinue or refuse service when the Company has reason to believe that a customer has used a device or scheme to obtain service without payment and where the Company has so notified the customer prior to disconnection. Such schemes shall include but are not limited to making any type of call that is prohibited by this tariff, such as calls beyond 15 miles, by using automatic call-back service or having an information operator directly connect the call.
