

# Clear Rate IP PRI

## Keep your PRI-enabled PBX and Save

### Why IP PRI?

Perfect for companies looking to upgrade from copper-based voice and connect via their high-speed internet service to enable more advanced voice services. Replace older TDM-PRI technology with IP-PRI and use as many voice channels as you want vs. only 23 analog voice channels.

### Key Benefits

#### Preserve Existing Investments

Keep your current PBX and handsets while gaining efficient network performance.

#### Superior Voice Quality

Consistent, reliable call quality backed by Clear Rate's private, secure network.

#### Business Continuity Built In

Automatic failover and rerouting ensure calls stay live even during outages.

#### Optimize Bandwidth

Scale up or down depending on voice and data demands.

#### Eliminate Unreliable, Expensive Copper Lines

Save on maintenance costs and downtime associated with outdated service.

#### Easier for IT Departments

Monitor phone and internet via one connection.
