

Managed Wi-Fi that just Works

Enterprise-grade wireless. Fully managed. Built for your business.

Slow speeds, dropped connections, and security gaps damage productivity and customer experience. Let Clear Rate's Managed Wi-Fi deliver reliable, secure, high-performance wireless—without adding burden to your IT team. We'll take on the hassles of managing and maintaining so that you and your team can focus on growing your business.

Ideal for:

Employee productivity & collaboration

Mobile and flexible workspaces give employees the freedom to share desks and work from anywhere.

Guest Wi-Fi

Improve your customer experience by offering Wi-Fi. Also, keep them off the corporate network for improved privacy and security.

Mobile Point-of-sale, inventory scanners, tablets, and kiosks

Get accurate, real-time data access and transaction processing along with faster customer service, checkout, and operational efficiency.

Voice, Video, Security Cameras, Badge Readers, Smart TVs

Get clear, reliable voice and video while eliminating the costs of wiring to enable all types of devices.

Managed Wi-Fi that just Works

What you Get

Design & Deployment

Site surveys, access point placement, and professional installation.

Control of all Access Points from a Single Controller

– even across multiple sites.

24/7 Monitoring & Support

Proactive issue detection and rapid resolution. Automatic detection of interference from non-Wi-Fi sources.

Business-Grade Performance

Consistent coverage, fast speeds, and optimized traffic.

Built-in Security

Network segmentation, encryption, and threat protection.

Multiple SSIDs to Segment the WiFi Network

– for different user types (Employees, Guests, Contractors, etc.)

Simple, Predictable Costs

One monthly fee—no surprise expenses.

Integration with your User Database

Active Directory or LDAP. RADIUS for authentication.

Captive Portal for User Sign-ons

Fully HIPAA and PCI compliant.

Let our experts recommend number of access points.

A single Access Point can support more than 100 users, our Wi-Fi experts will survey your site and recommend the amount based on space layout, building materials in walls and ceiling etc. Additional Indoor and Outdoor Access Points can be added to any package.
