

Clear Rate Managed Microsoft Exchange

Why Choose Clear Rate Managed Exchange?

Microsoft Exchange is the gold standard when it comes to business email. Used by hundreds of thousands of organizations of all sizes, it is the most reliable and efficient email solution available, with outstanding functionality and superior platform stability. And when it's managed by Clear Rate, the benefits are even more compelling.

Guaranteed Reliability - Hosted in Microsoft's cloud with geo-redundancy and multiple database availability groups, Clear Rate Managed Exchange comes with a **99.9% uptime Service Level Agreement (SLA)**.

Reduced Costs - With your email in the cloud and administration handled by Clear Rate, you don't need costly email servers, software, or tech staff. Less hassle, and a low monthly rate.

Anywhere Access - Work smarter wherever you are by accessing your email, contacts, and calendar on your phone or tablet, or through the web-based Outlook Web App.

Reduce Spam - Email services are paired with AI-powered anti-spam and anti-malware filter, preventing malicious content and spam messages from reaching your mailbox.

No IT Sick Days - No need to worry about how to handle an email problem when a member of your IT team (maybe the only member) calls in sick or goes on vacation. Clear Rate has you covered.

Email Expertise - Backed by support directly from Microsoft, we employ experienced Exchange administrators. That means that your system is administered and maintained by the very best.

Clear Rate Managed Microsoft Exchange

Enterprise Class Features

Mobile Device Access

Use your smartphone or tablet to access your email, contacts, and calendar when you're on the go.

Global Address List

Look up contact information of anyone in the company. Set up rules to moderate who can send emails to the entire company or any distribution list. Create shared calendars for conference rooms.

Shareable Calendar

Allow others to see and/or manage your calendar or contacts. You have control over who sees what.

Resilient Mailboxes

With Clear Rate's Managed Microsoft Exchange, you're protected from accidental email deletions.

Anti-Spam/Anti-Virus

AI-powered real-time detection using a multi-faceted spam and anti-malware detection approach protects against phishing and spam attacks.

Outlook Web Access (OWA)

The familiarity and functionality of Outlook, anywhere there's an internet connection.
