2.5 Contract for Service

Service is installed upon contractual agreement between a Customer and the Company. The contractual agreement specifies the terms and conditions of service not covered by this tariff. The contract does not alter the obligations of the Company to customers as described in this tariff.

The term of the services shall commence and will remain in effect from the service activation date specified in the contract for the term of the contract. Should the Company continue to provide service after the initial term without further agreement, the service shall continue under the terms of the then applicable tariff on a month-to-month basis. Contracts which are not either renewed or terminated at expiration will continue on a month-to-month basis.

2.6.2 Initiation of Service

Service shall be deemed to be initiated upon the service activation date specified in the Customer contract.

2.7 Deposits

2.7.1 Deposit Requirements

The Company may require from any Customer or prospective Customer a deposit to be held as a guarantee for the payment of charges. Any applicant who is either not a previous Customer having an established prompt payment record or whose credit record is not satisfactory may be required to pay a deposit. In its calculation of a Customer's creditworthiness, the Company will use trading banking references, credit reports, and any other information pertinent to a Customer's credit.

2.7.2 Amount of Deposit

The amount of the deposit shall not be more than three (3) months of usage of the Company's services for any specific Customer. The amount of such usage may be estimated from past usage, the Customer's estimated anticipated usage, or the Company's average usage considering type and nature of service. The amount of deposit may exceed this total when services are provided for shorter periods of time or special occasions.

2.7 Deposits (continued)**2.7.3 New or Additional Deposit**

A new or additional deposit may be required to cover the amount provided in Section 2.7.2 above when a deposit has been refunded or is found to be inadequate by virtue of abnormal toll usage, nonpayment, or impairment of the Customer's credit. The new or additional deposit is payable at the address specified in Section 2.7.4. Service may be disconnected unless the new or additional deposit is made within seven (7) days after written notification.

A. Abnormal Toll Usage. For Customers with at least six (6) consecutive months of service, "abnormal toll usage" is defined as at least a twenty-five percent (25%) increase in monthly usage charges amounting to at least twenty (\$20) dollars. The Customer's average monthly bills for not less than the three (3) prior months shall be used in determining the increase. For Customers with less than six (6) consecutive months of service, "abnormal toll usage" is defined to exist when one (1) month's service exceeds the deposit attributable to the service by twenty-five percent (25%) amounting to at least twenty (\$20) dollars.

2.7.4 Handling of Deposits

Deposits shall be sent or delivered to: Clear Rate Communications, Inc., 500 S. Old Woodward, Suite 600, Birmingham, MI 48009. The Company will maintain records that show the name and address of each depositor, the amount and date of the deposit, and each deposit, together with any accrued interest, shall be credited to an appropriate account and shall be disposed of in accordance with the law.

2.7.5 Receipts

A receipt of deposit will be furnished to each Customer from whom a deposit is received upon request. Duplicate receipts will be provided to Customers who have lost their receipts if the deposits are substantiated by the Company's records, also upon request.

2.7.6 Customer Obligations

The existence of a deposit in no way relieves the Customer of the obligation to comply with the Company's regulations for the prompt payment of bills.

2.7.7 Refund

The deposit may be refunded or credited to the Customer after not more than twelve (12) consecutive months of prompt payment unless the Company has information which indicates the deposit is necessary to ensure prompt payment. The account shall be reviewed after twelve (12) months of service, and if the deposit is retained, it shall again be reviewed at the end of the Company's accounting year or on the anniversary date of the account.

2.8 **Billing**

2.8.1 **Monthly Billing**

Bills to Customers will be issued monthly. Certain service charges, including local service and installation charges, unlimited Toll and Bucket Toll plans are billed in advance. Toll charges levied on a per minute cost basis are billed in arrears.

Customer payments are considered prompt when received by the Company or its agent on or before the due date on the bill. The due date is twenty (20) days after the bill is rendered. Any Customer not paying the amount shown on the bill, and not in dispute, within twenty (20) days is considered delinquent.

Payments made after the due date, and not in dispute, are subject to forfeiture of Volume Discounts (where applicable). In addition, when the bill is over thirty (30) days in arrears from the due date, late payment charges shall be assessed. The late payment charge shall be the lesser of (1) a rate 2 percentage points above the Wall Street Journal price rate, as published from time to time; or (2) the highest interest rate which may be applied under state law for commercial purposes. The Company may request payment upon issuance of a final bill when service is terminated at the Customer's request. For all other bills, payment will not be requested until the due date.

A Customer is also liable for any legal fees incurred by the Company in the process of collecting a past-due amount. The amount of these fees can be determined by the officers of a court if the proceedings are fully litigated. If the Customer acquiesces to the Company's demand for payment before a judgment is rendered, the Company will bill the delinquent Customer for costs incurred to that point. The Customer is entitled to a statement of legal fees that are being assessed.

The Company will apply a Customer's deposit on file toward that Customer's delinquent payment amount.

The maximum payment required for the restoration of service that existed prior to disconnection shall be the total past-due amount (including late payment charges), applicable nonrecurring charges, and if appropriate, Advance Payment and Deposit charges, as specified above.

The Customer is responsible for all charges for services furnished at the Customer's request and for all interexchange toll and local services furnished. Failure to receive a bill does not exempt the Customer from prompt payment of the account. It is the Customer's responsibility to contact the Company when a bill is not received. Except as provided elsewhere in this tariff, the rate for a fractional part of a billing period is a pro rata share for the rates for the full billing period, as specified in this tariff. If prorating indicates a refund is due, the refund is applied as a credit to the bill.

If a Customer terminates an account with the Company and has a credit balance showing, the Company will transfer that balance to another account of that same Customer, if one exists. Otherwise, the Company will mail a check for the balance to the last known address of the Customer. If the check is returned as undeliverable or reasonable attempts to locate the Customer fail, the Company will bill a closed account maintenance charge of \$2.50 per month in the second billing period after the account was terminated. This charge will continue until the Customer requests a refund or the balance is exhausted.

2.8 Billing (continued)**2.8.2 Account Codes**

Account codes are three digit numbers entered after dialing a long distance number. Use of account codes allows customers to receive a bill showing calls sorted and subtotaled. Account codes are verified, meaning a valid code is required to complete the long distance call. Customers may select up to 100 codes from a pre-defined list of random 3 digit codes.

Account Codes are \$10.00 per month with a one-time setup charge of \$25.00.

2.8.3 Bill Contents

The bill form or a bill insert will provide the following information: the dates at the beginning and end of the billing period; the last date for timely payment, which shall not be less than twenty (20) days after the bill is rendered; the amount of the net charge, stated by category, for local service, ancillary services and equipment, toll service, information service, sales tax and excise tax, and any late payment charge, together with the gross amount of the bill, with separate entries for total amounts current or in arrears. The Company will also comply with reasonable requests for bill detail.

2.9 Payment for Service**2.9.1 Late Payment and Check Service Charges**

A late payment may be imposed by the Company. A check service charge will be assessed for any reason a check tendered to the Company by a Customer as payment for a tariffed service is returned to the Company or is not in an acceptable form. The check charge will be thirty (\$30) dollars per check. Examples of the application of the check charge include, but are not limited to, the following:

- A. Insufficient funds.
- B. Improper or lack of endorsement.
- C. A check issued in such a manner as to be not processable or places unreasonable burdens on the Company.
- D. Conflict in the amount shown numerically and the amount written alphabetically on the check.
- E. Qualified endorsement not acceptable to the Company.
- F. The Customer places a stop payment on the check.
- G. Any other reason which would cause the Company to return the check.

2.9 Payment for Service (continued)**2.9.2 Partial Payment**

If a Customer makes partial payment in a timely manner and does not designate the service for which payment is made, the payment shall first be applied to the undisputed balance for local service, with the remainder applied on a pro rata basis to regulated utility services and toll service. Any remainder will then be applied to deregulated and unregulated services other than toll. Any late payment penalty charge will be applied only to the outstanding balance for services.

2.9.3 Collection

No collection efforts other than the rendering of the bill shall be undertaken until the delinquency date.

2.9.4 Taxes and Fees

Any governmental assessments, fees, licenses, or other similar taxes or fees imposed upon the Company on a per-call basis shall be charged to Customers receiving the Company's service within the territorial limits of the governmental authority imposing such taxes and fees. Such taxes and fees will be allocated among such Customers uniformly on the basis of Customer's monthly charges for the types of service made subject to the taxes or fees.

2.9.5 Supplemental Schedules for Municipal Tax

Pursuant to Section 9-221 of the Illinois Public Utilities Act, as amended, the Company will charge its customers in municipalities, in addition to the other lawful rates and charges, an infrastructure fee for intrastate services. The fee will be listed separately on a customer's bill to comply with the requirements of the Act.

2.10 Disputes and Complaints**2.10.1 Disputed Bills**

In the event of a dispute concerning the bill, the Company will require the Customer to pay a sum of money equal to the amount of the undisputed portion of the bill. Following payment of the undisputed amount, efforts to resolve the complaint using the complaint procedures in Section 2.10.2 shall continue, and for not less than forty-five (45) days after the rendering of the disputed bill, the service shall not be disconnected for nonpayment of the disputed amount. If a Customer does not give the Company written notice of a dispute with respect to the Company's charges within two (2) years from the date of the bill, the bill shall be deemed correct and binding upon the Customer.

2.10 Disputes and Complaints (continued)**2.10.2 Complaint Procedures**

Final dates shall be no less than ten (10) calendar days with respect to an unpaid bill, and no less than twelve (12) days with respect to an unpaid deposit, after the notice is rendered. The notice shall be considered rendered to the Customer when deposited in the U.S. Mail with postage prepaid. - F. If the Customer or prospective Customer fails to furnish service equipment, permits, certificates, or rights-of-way specified to be furnished in the Company's regulations filed with the Commission as conditions for obtaining service, or withdraws such equipment or terminates those permissions or rights, or fails to fulfill the contractual obligations imposed upon the Customer as conditions of obtaining service. However, no service shall be disconnected for this reason on the day proceeding or day on which the Company's office at the address specified in Section 2.7.4 is closed.

2.11.3 Refusal, Disconnection, and Suspension of Service for Nonpayment of Bill or Deposit

Except as restricted by Section 2.11.4, service may be refused based on the credit history of the applicant. In all cases, the applicant will be advised of the reasons for the denial of credit. Service may also be refused, disconnected, or suspended for nonpayment of a bill or deposit if the Company has made a reasonable attempt to effect collection and:

- A. The Company has provided the Customer with five (5) days' prior written notice with respect to an unpaid bill and twelve (12) days' prior written notice with respect to an unpaid deposit. However, disconnection may take place prior to the expiration of the 5-day unpaid bill notice period if the Company determines from verifiable data that usage during the 5-day notice period is so abnormally high that a risk of irreparable revenue loss is created.
- B. In the event of a dispute concerning the bill, the Company will require the Customer to pay a sum of money equal to the amount of the undisputed amount, efforts to resolve the complaint using the complaint procedures in Section 2.10.2 shall continue, and for not less than forty-five (45) days after the rendering of the disputed bill, the service shall not be disconnected for nonpayment of the disputed amount.

2.12 Cancellations and Deferments of Service

When a Customer cancels or defers an order for service before the service is activated, a charge applies that will allow the Company to recover its unrecovered costs, including but not limited to outside vendor charges, engineering, labor, materials, and equipment. Charges apply as follows:

2.12.1 Cancellation

In a cancellation situation, the charge is equal to the unrecoverable costs incurred prior to the request for cancellation and the costs of removal, restoration, and disposal, if any, to comply with the cancellation. Those costs include, but are not limited to, costs of outside vendors, engineering, nonrecoverable materials, and equipment expense.

2.12.2 Deferment of Start of Service

If a request for deferment of service is received by the Company prior to the date an order for equipment or service is placed with the Company's supplier, no charge shall apply. For deferments received by the Company subsequent to the date the order for equipment or service is placed with the Company's supplier, a monthly recurring charge based upon the costs incurred prior to the request for the deferment applies. This monthly rate shall be equal to 1 ½ %, plus recurring costs resulting directly from the deferral such as storage, taxes, etc. In addition, any extraordinary nonrecurring costs resulting from the deferral, such as additional engineering, labor, and transportation shall be billed in total. Billing shall start at the beginning of the month of deferment and extend to the start of service.

Charges shall not exceed the monthly rate that would have applied had the service been established. The Company will also charge the Customer who defers service any and all rates and charges incurred by the Company for any leased facilities for which the Company is held responsible. The Company will make a good faith effort to minimize those rates and charges whenever possible.

2.13 Special Promotions

From time to time the Company may engage in special promotions of limited duration not exceeding ninety (90) days. Charges for directory assistance shall be those set forth in this tariff for all customers of the Company. Because such charges are not included in the prepaid amounts paid by customers, the Company reserves the right to bill customers immediately for such services. Customers may not make more than 10 calls to directory assistance in any 30 day period unless they provide to the Company all charges for such directory assistance.

Customers may not use the feature of directory assistance whereby they may be connected directly to the called party to make a call that is not permitted by this tariff (for example, a call in which the called party's Ameritech Illinois central office is greater than 15 miles from the central office serving the customer). - A. Regular bills will be issued once each month. All services of the Company are prepaid. The bill shall include a monthly fee which will allow the Customer to make an unlimited number of calls to locations in which the Ameritech Illinois central office of the called party is 15 miles or less from the central office serving the Customer. Additional prepaid charges may include charges for any special or enhanced services or any extended calling area ordered by the Customer.
- B. Charges for services that are not included in prepaid charges may be issued to the Customer immediately. These bills will carry a due date which is ten days after the due date that they are mailed or seven days if delivered by hand.
- C. Bills are due on the due date shown on the bill and may be paid at any of the Company's public business offices or other authorized payment locations.

3.7.4 Disconnection for Evading Use Restrictions

The Company may discontinue or refuse service when the Company has reason to believe that a Customer has used a device or scheme to obtain service without payment and where the Company has so notified the Customer prior to disconnection. Such schemes shall include but are not limited to making any type of call that is prohibited by this tariff, such as calls beyond 15 miles, by using automatic call-back service or having an information operator directly connect the call.
